

Virtual Volunteering

Holland Bloorview

Holland Bloorview is Canada's largest children's rehabilitation hospital focused on improving the lives of kids with disabilities. We provide a mix of services, all under one roof, not offered anywhere else in Ontario. More than 8,000 kids come through Holland Bloorview's doors every year with autism, cerebral palsy, acquired brain injuries, amputation, epilepsy, concussion and other physical and developmental disabilities. Our vision is to create the most meaningful and healthy futures for all children, youth and families.

Our top priority at this time is supporting the families and staff of Holland Bloorview, as children with disabilities are at a heightened risk from COVID-19. Kids with compromised immune systems, or who require ventilators, are often forced into strict, prolonged isolation to survive.

Volunteering Opportunities

MASK MAKING

Work together to keep our community healthy and safe, we are asking community members and their friends, with the capacity to sew, to make cloth masks. Our goal is to be able to provide non-medical masks to our staff, clients and families who are coming and going to and from the hospital, for use when they are in the community and in situations where it is impractical or impossible to practice physical distancing.

FOCUS GROUP

Work together as a team to help Holland Bloorview Staff develop new programs and ideas during this difficult time. Help Holland Bloorview create a new world of possibilities for our children, families and staff.

SPECIAL EVENT

Bring your office team together through a virtual volunteering session to create a special event, maybe an innovative hack-a-thons or a virtual fundraising event such as Trivia or a Virtual Gala.

KIT MAKING

Work together as a team to create kits for families and children in need. Create sleeper kits for our super hero parents who stay beside for weeks on end. Create kits for our siblings that come to visit there brothers and sisters every weekend. Together your team will create a tangible change.
