

## Research Ethics Board Standard Operating Procedure Addendum

The Holland Bloorview Research Ethics Board (HB REB) has adopted the N2/CAREB REB SOPs. Some internal practice requirements differ from those in the N2/CAREB SOPs. This SOP addendum describes the specific HB REB requirements related to the N2/CAREB SOP noted below.

SOP #	Title
701.003	Informed Consent Form Requirements and Documentation

N2/CAREB REB SOP Section #	HB REB SOP Addendum
<p><i>3.0 Responsibilities</i></p> <p>The Researcher is responsible for providing the REB with a detailed description of the rationale for a consent waiver or the consent documents and a description of the consent process.</p>	<p>For all research involving children and youth, the Researcher must:</p> <p>a. Submit for REB approval a study-specific process to assess whether a prospective participant has the capacity to consent to participate in the study.</p> <p>Capacity refers to the person’s ability to understand and appreciate relevant information and appreciate the potential consequences of the decision on whether or not to participate in a research study. Capacity to consent is study-specific, is assumed to be present unless it can be shown otherwise, and should be considered during the consent discussion.</p>
<p><i>5.4 Recruitment Methods</i></p> <p><b>5.4.4 Health Records Department:</b> The Researcher may ask the Health Records Department to identify patients who appear to meet the research’s eligibility criteria. The Researcher should supply Health Records with a standard letter describing the research to give the patient’s physician, and asking whether the physician would be willing to approach his/her patients about participation. It is NOT acceptable for the Researcher or his/her staff to contact patients identified through hospital records, clinic charts or other databases independently by</p>	<p>Researchers should attempt to recruit using the BRI connect2research program prior to contacting the Health Records Department to assist with recruitment.</p>

<p>phone, unless the patient has previously agreed, or is already under the medical care of the Researcher;</p> <p><i>5.6 Documentation of Informed Consent</i></p> <p>5.6.4 The Researcher or designee should document details of the consent process in the research participant’s medical record, according to the organization’s guidelines;</p> <p>5.6.6 The REB may approve a short form written consent document in cases where the research participant may lack the capacity to consent. The short form consent form contains all required elements of informed consent. A written summary of the information is presented orally to the research participant or their substitute decision maker. The short form consent document is signed by the research participant or the substitute decision maker. An impartial witness must be present during the oral presentation. The witness must sign both the short form consent document and a copy of the written summary. The person obtaining consent must sign a copy of the written summary of the information that is presented orally;</p> <p><i>5.9 Consent for Research Involving Individuals who Lack Capacity</i></p> <p><i>5.11 Consent for Research in Health Emergencies</i></p>	<p>The Researcher should not document details of the consent process in the research participant’s medical record unless it is required in order to minimize risk of harm to participants or has implications for their current or future medical care.</p> <p>When appropriate, the REB may approve the criteria listed in 5.6.6. However, the REB will generally expect Researchers to follow the Informed Assent Elements and Informed Assent Process SOPs REB-704 and REB-705.</p> <p>In addition to the criteria listed in 5.9, the REB will generally expect Researchers to follow the Informed Assent Elements and Informed Assent Process SOPs REB-704 and REB-705.</p> <p>This section is not applicable as the BRI is housed within a rehabilitation hospital and does not conduct research in health emergencies.</p>
